

CUBAN GENEALOGY SEMINAR

One of the consequences of any immigration is the loss by new generations of their family roots, origins, and heritage. With the eventful loss of our parents and grandparents, Cuban American families are losing their only historical bridge to the answer of; “who are we, and where do we come from?”

The University of Miami’s Koubek Center and the Cuban Genealogy Club of Miami are cosponsoring a free lecture on Cuban and Spanish Genealogy. This is a course on basic genealogy and how to document our family history. The event will take place on;

**Wednesday March 16, 7-9 PM
University of Miami Koubek Center
2705 SW 3rd Street
305-284-6001**

Attendees will learn how to conduct family interviews, document and record data, and research Cuban and Spanish document sources. For further information please contact;
Jorge R. Piñon, 305-285-4747
